Power Skating

During the three day power skating camp players will work on proper arm swing, pivots (forward & Backwards) tight turns and lateral movements. Each player will feel more confident in their skating ability when finished with the

camp. All coaches on the ice will spend time individually with each player to ensure that each player understands each skating drill.

Stick Skills

The Stick Skills camp will consist of tight area puck handling, puck protection and passing. Coaches will teach kids in a group setting to

handle the puck while being pressured. All drills will be easy to practice both on and off the ice.

Shooting to Score

Every player wants to score! We will take the time to explain technique of all four shots (wrist, backhand, snap and slap). As we explain the technique we will talk about the proper time to use each shot during a game. After the three day shooting camp players will have a much better shot and understanding of when to use each shot.
